

Testimony of Christopher Fromme (Allegheny Regional Hearing)

In 2011 it was obvious that Western Pennsylvania would lose a district thus in the plan that I submitted then combined parts of the then 12th & 4th district. The framework of my 4 district plan for Western Pennsylvania was adopted. But on the other side of the state it is my belief that federal politicians influenced the districts thus they were gerrymandered contrary to the spirit of the Supreme Court case of which I was a Petitioner Holt et al. v. 2011 Legislative Reapportionment Commission. Thus the 2018 Supreme Court drew new districts that split towns and streets. I choose to make a district as close to 764,864 as possible but do not split communities. My starting place is in the West. Most of the Township in the 17th districts of Allegheny County gained population. Used the flawed map of 2018 and thus all districts would shift east. My final statewide plan which I plan to present at the last hearing will show the current 6th district being eliminated. All data shown is current 2020 census. In District 16 since I came up short 944 one precinct could be added from Lower Burrell City. Also the totals for Allegheny County from CD 17 & 16 are short a small amount, was not able to find mistakes in time to submit this. 2335 is the difference that is extra maybe a boro that I missed
